PRE-BID AGENDA

April 29, 2025

- I. Introductions
 - A. Shih-Ping Lin, IU Capital Planning & Facilities Team Lead
 - B. Matt Harms, IU Construction Project Manager
 - C. Dawn Gray, Springpoint Architects
 - D. Bill Stacey, CMTA Engineering
- II. Sign-in Sheet
- III. Bids Due: Thursday, **May 15**, 2025, 2pm.
- IV. Project Timeframe (reference Summary of Work Section 01100):
 - A. Construction Start - June 1, 2025 (Anticipated Start Date)
 - B. Substantial completion – August 31, 2025.
 - C. Questions during bidding should be addressed to Dawn Gray, dawn@springpointarchitects.com, email preferred. Tuesday May 13th Final Addendum to be issued. Questions in by noon, May 12th.
 - D. Bidding Requirements, reference Instruction to Bidders in the project specification manual:
 - A. 5% bid security
 - B. Contractors written drug testing program
 - C. Contractors Minority and Women’s Business Enterprise Participation Plan
 - E. Project Requirements
 - A. General Conditions & IU Standard supplementary conditions and modifications in front end. Refer to Capital Planning and Facilities Divisions 00 and 01.
 - B. Payment and Performance Bond
 - F. Documents – Available thru the IU Plan hosted by Eastern Engineering and sets are available to view at the Springpoint Architects office
 - G. Project Identification: Project includes construction of Restroom upgrades at Indiana University as shown on the Construction Documents prepared by Springpoint Architects, P.C., and their consultants, dated April 21, 2025.

- A. Project will be constructed by a General Contractor as a single prime construction contract.
- B. Contractor Access to Site:
 - 1. Reference attached Pre-Bid presentation outlining site access.
 - 2. Additional site access details will be coordinated with the owner.
 - 3. The contractor is responsible for construction barriers as indicated in the Construction Documents and additional dust management required to complete the project.
 - 4. The contractor is responsible for protecting all finishes to remain, including walls, floors, elevators, etc. in the project area and routes, interior and exterior, to the project area.
- C. Project Description
 - 1. The work includes the construction of restroom upgrades:

RE: Polarized Light Microscopy (PLM) Bulk Sample Results

Project Name: U-School Gym
Project Number: 2314896-006

Location: Women's Locker Room - Shower Room
Date Received: August 7, 2015

Dear Brett Chitwood:

Enclosed is(are) the result(s) of the analysis performed on the sample(s) received by Micro Air, Inc.

Method of Analysis:

Polarized Light Microscopy (PLM) with Dispersion Staining using EPA-600-M4-82-020 & EPA Method/600/R-93/116 (1993). All samples may be heated to release fibrous material.

Negative PLM results of non-friable organic bound (NOB) materials, such as floor tiles and roofing materials, can be inconclusive due to analytical difficulties in standard bulk sample analysis techniques. If desired, negative results can be confirmed with transmission electron microscopy (TEM) to ensure that asbestos has not been missed during PLM analysis.

Asbestos regulations and EPA methods state that distinct layers must be analyzed and reported separately. If composite analysis is requested and performed on multi-layered samples, the sample is considered asbestos containing material (ACM) if any quantity of asbestos is found.

This report may not be reproduced, except in full, without written approval from Micro Air, Inc., and only relates to the items tested. This report should not be used to imply product or service endorsement by NVLAP or any agency of the U.S. Government.

If you have any questions concerning this report please do not hesitate to contact us.

Betsie L. Trammell
