Item 1 – Questions and Answers

Q1. I would like clarification on a door discrepancy between the architectural drawings and the door schedule. On A201, in the Room 431/431A plan, it is indicated by notes 5 & 9 that door 431-1 is new. On the same drawing, it is indicated by lack of note 5 & 9 that door 431A-1 is not new. However, the door schedule lists 431A-1 for a new door and does not list 431-1.

Based on the demolition plan (A101), I assume that 431-1 is the only new door for room 431, and that in the door schedule “431A-1” should actually be listed as “431-1.” Please let me know if this is the correct assumption.
